The Specialty of Family Practice

Your physician is a Family Practitioner and a graduate of an accredited Family Practice Residency Program. The Family Practice Physician is specially trained for three years after medical school to treat more than 85% of all medical illnesses, including behavioral, emotional and mental problems, and to provide total health care or you and your family. The specialty is broad based and includes adult medicine, geriatrics, pediatrics, gynecology, obstetrics, minor surgery and uncomplicated orthopedics.

Professional Medical Care is Important to You

We realize that you wish to receive your medical care from a highly trained, caring staff, therefore, professionalism is very important to you. Our promise to you is that our office will provide some of the finest medical care in Stamford, using the most modern procedures and utilizing extremely qualified staff. This modern office is equipped to provide comprehensive care at reasonable cost. If you are in need of any special services, we have excellent consulting relationships with medical specialists in the Stamford area.

Emergency Care

We recognize that you can have an emergency situation arise, and we will do our best to respond to your problem promptly. In the event of a severe situation, or one in which you are in doubt, go immediately to the nearest hospitals emergency room and ask them to contact us. If the situation is not that severe, but one where you wish to contact us, please telephone the office and one of the Physicians will be in touch with you directly or through office personnel to give you instructions on what to do and where to meet for the emergency care.

House Calls

Yes, they still exist and we will make them. However, due to scheduling difficulties, the times for house calls will have to be reserved for situations of complex circumstances and the hours will have to be flexible. Generally, if an emergency exists requiring immediate attention and we are not in the office, your needs can best be served by going to the emergency room nearest to you.

Telephone Calls

All patients are encouraged to call with any questions they have on medical problems. However, it would be most unfair to our patients were the doctor to leave an office visit to answer every telephone call. The office staff has been trained to answer many of your questions. They will also relay your information to the appropriate physician and your call will be answered at the earliest opportunity. Most return calls will be between 1-2 PM or after 5 PM.

After Hours Telephone Calls

If you find it necessary to contact us after normal office hours, messages will be forwarded to the covering physician. Your call will then be returned at the earliest opportunity.

Prescriptions and Renewals

All prescriptions & authorizations for renewals should be requested during normal office hours at the time of your appointment. No prescriptions for narcotic analgesics will be called in, you must have an appointment and be seen for this type of a prescription.

Practice Hours and Appointments

Appointments for routine problems and follow-up visits are available on the following schedule:

Monday to Friday 9 AM to 5:00 PM
Saturdays 9 AM to 2:00 PM

We will try to see all patients on an appointment basis, and we request that you call in advance so that we can reserve appropriate time for your visit. We make every effort to honor all time commitments and request that you extend the same courtesy to us. On occasion emergencies can cause problems, and whenever possible, you will be fully informed, to the best of our ability, if there will be any delays because of this. Failure to keep scheduled appointments and/or failure to notify us within 24 hours prior to the office visit will result in the subsequent office visit co-pay being doubled.

For Non-urgent issues you can reach us by E-mail at a nominal cost:

INSTANT MEDICAL HISTORY

This can be found at the Office Web Site at:

www.HighRidgeFamilyPractice.com

Click on Instant Medical History in the Left Upper Side of the Home Page of the Web Site.

Instant Medical History can allow you to input the reasons and complaints for your medical visit prior to being seen by the physician. This can allow your office visit to be accomplished more efficiently and may cut down on your time spent in the office.

Or allow you to do an OnLine Home Visit if appropriate.

OnLine Home visits are not covered by Medicare or most insurance companies and you will then be fully responsible for payment of these visits. It is also not to be used for any Urgent or Emergency Medical Problems. In those cases call the office directly and / or go directly to the Emergency Room nearest you.

Instant Medical History is only available to established patients of High Ridge Family Practice and is NOT to be used for a first Office Visit, unless specifically instructed to do so.

The password to use Instant Medical History (IMH) is:

imhathrpf (all in lower case).

It is the hope of Drs. Falkoff, Herbert, Berkun, Balichetty and High Ridge Family Practice, that these E-Mail services will help expedite the delivery of medical care. We hope this will save patient's time in phone calls, office visits, time away from work, reduce waiting room time and speed delivery of care. Unfortunately, for the foreseeable future this is not a covered medical service by most health plans or Medicare.

New Policy at High Ridge Family Practice

Effective since 5/1/2002

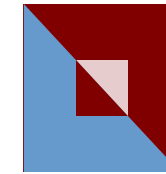

We regret to announce the need to charge a processing and postage fee to those patients who receive a copy of their lab results in the mail. Spiraling postage costs and overwhelming paperwork necessitate this change. If you need to have copies of your lab results, the annual fee (for the present time) will be \$ 10.00.

This nominal fee only needs to be paid if you want copies of your Labs, Tests and Written Confirmation of completed forms

Additionally, we ask that you address an envelope when you come in for your appointment. The staff will provide you with an envelope. If you come in for regular appointments, we can leave several in your chart.

Medicare and other insurance companies will not cover this cost. This cost will have to be paid for by you, the patient. This is not a reimbursable cost by Medicare or other insurance companies.
